

7 STEPS TO RELIEF FROM MOLD IN YOUR HOME

CLEAN YOUR NOSE

BEGIN HERE

Our Products Combat Mold Exposure at Every Source. Nose, Home, Clothes, & Household Items.

1 Remove the mold in your nose.

Mold spores enter your body through the nose and can colonize in your sinuses.

Breathe Easy Kit

TEST YOUR HOME

2 Testing to see if & where your home has mold will help you to get better, faster.

Mold grows anywhere there is moisture & food:

- Drywall
- Wood
- Carpet
- Insulation
- Upholstery/Clothing
- Adhesives / Caulk

EC3 Mold Test Plates

CLEAN HOME & CLOTHES

3 Spray or "cold fog" and vacuum all of your living spaces.

EC3 Mold Solution Spray

Sani-Tizer Cold Fogger

HEPA Vacuum

4 Don't forget to spray furnishings & non-washable items too.

Rugs, furniture, beds, curtains, doormats, pet beds, coats, shoes, doormats, etc.

EC3 Mold Solution

EC3 Mold Solution Concentrate

5 Wash mold spores off of clothing & linens.

Mold spores will attach to any clothing and/or textiles and follow you everywhere you go.

EC3 Laundry Additive

6 Purify your indoor air.

Mold spores and mycotoxins can be temporarily reduced to acceptable levels by burning EC3 candles.

EC3 Candles
